1. USING XAVORIAN & WAITLIST MECHANICS

Q: Is Xavorian live yet?

Not yet. Xavorian opens city by city, and each city starts from its waitlist. Joining takes under a minute, and we will email you when your city opens. No launch date is promised.

Q: How does the waitlist work?

You leave your name, email, city and whether you are searching or selling. We email you when your city opens and may send occasional waitlist updates. You can unsubscribe at any time. Agents on the waitlist are verified before their city opens.

Q: Why do cities open in waitlist order?

Verification needs deep city-by-city registry indexing. The waitlist shows us where demand is deepest, which helps decide where we launch first, alongside how ready each city's verification is.

Q: What does Xavorian cost for buyers?

Browsing and enquiring on verified listings is free for property seekers. Verification is the price sellers and agents pay to be listed. If anyone claiming to be Xavorian ever asks a buyer for a verification fee, do not pay, and report them to support@xavorian.com.

2. VERIFICATION, PAYMENTS & PLATFORM SAFETY

Q: What does verification actually include?

Four gates: a government ID with a live biometric liveness check, a bank-account name match, a scanned document audit with AI assist, and an automated multi-layer verification audit before anything goes live. A listing that fails a gate is not published.

Q: What happens when a listing fails a gate?

It stays offline. The seller is told what failed and can correct it and resubmit, or ask for a human review. Listings that keep failing may be permanently removed, and accounts that repeatedly submit false documents may be closed.

Q: How do payments work on Xavorian?

Payments made through Xavorian move through our payment partner, Paystack (a Central Bank of Nigeria licensed payment provider), to the verified seller's bank account. The receiving account name must match the verified identity on the listing. Xavorian is not a bank or escrow service and does not hold, pool, or reroute your money. If the account name does not match the verified identity, stop and walk away.

Q: Can Xavorian be held legally liable if a scam occurs?

Xavorian provides technology screening tools to help keep fake listings and untraceable accounts off the platform. Xavorian is a neutral technology marketplace, not a landlord, estate broker, bank, or insurer, so you must still do your own physical due diligence and lands registry searches.

Under our Terms of Service, Xavorian is not liable for losses caused solely by the independent fraud or criminal conduct of other users or third parties that are not attributable to Xavorian's own fault. Xavorian remains responsible for its own breach, negligence, and misleading statements, and nothing limits rights you have under Nigerian law.

Q: What happens to my documents and personal data?

Verification documents are used for verification and to meet legal and fraud-prevention duties. They are not sold and not published publicly, and only authorised systems and staff can access them. Waitlist emails are used for launch updates and waitlist communications. You can ask us to delete your data at any time, subject to any retention the law requires. See our Privacy Policy.

3. FOR AGENTS & LANDLORDS

Q: I am an agent. How do I join, and what does it cost?

Join the waitlist as an agent and we will verify you before your city opens: ID and liveness check, bank match, document review, and multi-layer verification audit. The waitlist is free. Agent pricing will be published before launch, with no hidden onboarding fees.

Q: How do verified agents benefit on Xavorian?

Verified agents receive the verified badge and elevated listing placement. Many buyers prefer to deal with verified agents and listings with audited paperwork.

4. SUPPORT CENTER & ESCALATION PROTOCOLS

Q: How do I reach support at Xavorian?

Q: What are the response timeframes across support channels?
